

# Linroc k-Bond

k-Bond is a tissue faced PIR insulation system used to create falls under any compatible membrane. The product is dimensionally stable, and is available in a wide range of falls. k-Bond has excellent thermal properties and can achieve very high U-values.

## Thermal Performance

U-values are calculated for each scheme designed to ensure the required figures are achieved.

Contact our technical department for further information.

## Installation

Must be installed in accordance with manufacturer's recommendations. Contact our technical department for further information.

## Features

- Ozone Depletion Potential of zero
- CFC, HFC and HCFC free
- Global Warming Potential <5
- BRE Green Guide A generic rating
- Easy handling and installation

## Technical Info

Board Size	1200 x 1200mm, 1200 x 600mm
Thermal Conductivity	0.024 - 0.027 W/mK
Thickness	U-value dependent
Falls	1:40, 1:60 and 1:80
Compressive Strength	150 kPa @ 10% compression
Fixing	Adhered with non-solvent PU adhesive
	Mechanical with thermally broken fasteners
Reaction to Fire	Class E
